NOMINATION LETTER for CHAIR ELECT of THE COMMISSION 7 of FIG
for 2004-2006, COMMISSION CHAIR for 2006-2010

Dear Mr. Markku Villikka,

The Hungarian Society of Surveying Mapping and Remote Sensing, MFTTT, has decided to nominate *Mr. András Osskó* for chair elect of the Commission 7 of FIG for 2004-2006 and in the same time commission chair for 2006-2010.

Mr. András Osskó has been the Hungarian delegate to Commission 7 since 1995. Between 1998-2002 he was the chairperson of the Commission 7 working group on Land Market.

Since 2002 he has been vice chair of the Commission 7 and chairperson of working group 1.

“Creation land administration in formal and informal environment”

He was very active and, we think, successful during this period. He organised the Commission 7 Annual meeting in Budapest, Hungary in 1996. Since 1995 he has participated in all FIG Working Weeks, conferences, Commission 7 Annual meetings, presenting several papers and representing our society, MFTTT, as a national delegate.

As a result of his activities in the work of FIG, particularly of Commission 7 he became the chair of working group, mentioned above, in 1998 and since then holds this position. He was invited for participating in the joint UN/FIG workshop in Bathurst, Australia, contributing to the Bathurst Declaration.

He is well qualified, suitable personally and professionally to lead the work of Commission 7. He is a well-known professional at international and national level.

The Hungarian Society, MFTTT, gives full professional and financial support in his work, needed to lead Commission 7, participating in FIG events and activities in case of his final appointment of chair elect by the General Assembly.

We are convinced that he can contribute to the work of FIG in particular Commission 7 with success as he did during the passed years.

Géza Apagyi
President
