An aerial photograph of a rural landscape. A wide river flows through the scene, curving from the bottom left towards the right. The surrounding land is divided into numerous green and brown agricultural fields, some with distinct patterns. A small town or village is visible on the left side, nestled between the river and a forested area. In the background, rolling hills and a distant city skyline are visible under a clear sky. The text 'FIG represents the interests of surveyors worldwide' is overlaid in the center in a large, white, sans-serif font.

**FIG represents the
interests of surveyors
worldwide**

Mission of FIG

The Mission of the International Federation of Surveyors is to ensure that the disciplines of surveying and all who practice them meet the needs of the markets and communities that they serve.

How is FIG organized, commissions
